

Class Data Chat Planning Worksheet

Before engaging in a data chat with a **class**, consider what data you will need to analyze, including growth and performance. Use the guiding questions as you analyze class data, brainstorm reflection questions you'll pose during the conversation, and plan for the data chat.

Data Chat With: _____ Data Source(s): _____

Guiding Questions	Observations and Reflections
<p>Observe</p> <p>What do you notice about this class's performance and/or growth?</p> <p>What are some:</p> <ul style="list-style-type: none">• Bright spots?• Areas for improvement?• Surprises? <p>Record your observations.</p>	
<p>Infer and Question</p> <p>Note additional questions worth exploring, and consider additional data sources you can use to answer these questions.</p>	
<p>Share</p> <ul style="list-style-type: none">• What is important to prioritize in a data chat with this class?• How will you begin this data chat? What is your opening statement or question?• How will you engage the students in this class in looking at their own data?• How will you help students in this class set short- and long-term goals?	
<p>Take Action</p> <ul style="list-style-type: none">• What are realistic short- and long-term goals for this class?• Consider how you will track and communicate progress toward class goals.
